### My Best Work (Apart from my website <http://nakulrajput.com>)

**Name** : My Vitality - <https://goo.gl/W1mmA9>

**Tools/Skills** : Cordova, PhoneGap, HTML5, CSS3, JavaScript, JQuery.

**Description** : My Vitality is the most recent health & fitness app of MOVESMART Company. This was my 1<sup>st</sup> primary project which was based on Cordova & PhoneGap, so I learned a lot within 4 months while creating this app. Next project I am working in is an Ionic & Angular based mobile app, hope to add that too soon in my resume.

**Name** : ProseMedia - <http://www.prosemedia.com>

**Tools/Skills** : Photoshop, HTML, CSS, SCSS, Drupal.

**Description** : This website is not responsive but compatible with all major browsers. It was the first project which was assigned to me after joining Srijan. Well working in this project was very interesting, the time I started working on this project it had lots of bugs & issues that I had fixed. Well, evolved many skills while completing this project.

**Name** : Art-Yogi - <http://www.artyogi.com>  
**Tools/Skills** : Photoshop, HTML and CSS, Magento.  
**Description** : This website is full responsive with all major devices. While working in this project I gained lot of experience & exposure to Magento. My part was to design pages & implement the same in Magento with dev team support. Basically Art-Yogi is an online store for arts, paintings, home décor, jewelry, fashion wearables & many more things.

**Name** : City of Federal Way - <http://www.cityoffederalway.com>  
**Tools/Skills** : Photoshop, HTML and CSS, Drupal.  
**Description** : This website is full responsive & compatible with all major devices. One of the most well coded projects. Well working in this project was very interesting, as while working in this project I gained lot of experience & exposure to theme implementation in Drupal. There were few mockups designs also created as per client requirements, HTML pages, UI issues fixing & many months of hard work is involved in completing this project.

**Name** : WA-DNR - <http://www.dnr.wa.gov>  
**Tools/Skills** : Photoshop, HTML and CSS, Drupal.  
**Description** : This website is full responsive & compatible with all major browsers. It also have content reading feature for inner pages.

**Name** : Liquidation Channel - <http://www.liquidationchannel.com>  
**Tools/Skills** : Photoshop, HTML and CSS, PHP  
**Description** : Liquidation Channel, is a 24/7 home shopping and ecommerce business. With a more than 80 million household reach, Liquidation Channel is one of the fastest growing Jewelry and Lifestyle retail business in the US.

**Name** : Your Voice Moneytor Pay - <https://goo.gl/0AlzCt>  
**Tools/Skills** : Photoshop, HTML and CSS, Phonegap  
**Description** : Moneytor Pay is an Italian app which is designed & coded to be responsive for all android devices. This is a simple and affordable solution for buying vending machines in your office. <http://mpay.bitx.com>

**Name** : Bile-tall - <https://goo.gl/Hcig7C>  
**Tools/Skills** : Photoshop  
**Description** : Bile-tall is a mobile app used in Turkey, for domestic and international long-distance bus, or plane ticket to compare companies and prices on air tickets.

### **What is awesome about my professional skills after the quality experience & smart work of 5+ years?**

Have 99.99% accuracy to provide exact root cause & solution by just looking/hearing the issue criteria.

Always find the best approach to accomplish any project requirement & tasks.

Ability to follow agile & guide the whole team to wrap-up the project before deadlines.

I am from those 1% of UI Developers in the world who have the caliber to make impossible things works, even when the 99% around the world had already given-up by saying that this can't be done.

### **Hobbies:-**

Learn about new web technologies and trend.

Designing & Creating masterpieces like my own website <http://nakulrajput.com>.

### **Declaration:-**

Hereby I inform that all the information above is correct in my knowledge.
